OF CAGED BIRDS

## ABOUT US

Terrafeed is an agricultural industry that mainly focuses on sourcing and manufacturing different ingredients for bird and pet food.

Terrafeed Ventures begin as a manufacturer of bird foods. As a Philippine Company owned we usually try to make our mission as a manufacturer with FRESH & CLEAN ingredients to ensure that our clients and partners will be proud and that we're true to our company slogan.

As time goes by, we also now benchmark as a wholesaler of Beyers - an international brand for pigeons that also promotes a CONDITION & CARE product range that consists of a top-quality offer of nutritional supplements, grit- and mineral mixtures, and care & hygiene products.

And in addition to our poultry market, we also supply and manufacture different products for dog foods to cater to and bridge the network between the poultry and pet industry.

## MANUFACTURED BY

165 Maria Clara Street, between 7th and 8th  
Avenue, Grace Park, Caloocan City
